SilentPrint 1.05

Server Functionality / HTM/HTML & XML/XSLT Processing / Shortcut Support / Poll Frequency / Application Instances / Printed Folder Selection / Processing Fixes

Type: SilentPrint Update
Software Affected: SilentPrint Install / SilentPrint Trial
Hardware Affected: None
Further Reference: SilentPrint User Guide

Updates

SilentPrint 1.05 has the following updates:

- Server Functionality
 - HTM/HTML & XML/XSLT Processing
 - Shortcut Support
 - Poll Frequency
 - Application Instances
 - Printed Folder Selection
 - Processing Fixes
-

Server Functionality

The following functionality has been added to SilentPrint and is available for the SilentPrint Server format:

- XML/XSLT support. Uses MS Internet Explorer.
 - MSG support. Uses MS Outlook.
 - ZIP support. Processes supported files held within. Uses WinZip.
 - Error Report printed if a file fails to print.
 - Concurrent processing of files of a different type.
-

HTM/HTML & XML/XSLT Processing

HTM/HTML and XML/XSLT files are processed by MS Internet Explorer.

Shortcut Support

Support for MS Windows Shortcuts.

Poll Frequency

Poll frequency decreased to one second when a document is being processed. Reverts back to five seconds when processing is finished. As a result file processing performance is improved.

Application Instances

One instance of MS Word, Excel, Outlook and PowerPoint created and left open when an associated file is processed for the first time. As a result performance is improved because the said applications are not opened/closed for every file processed. Applications are closed when SilentPrint is shutdown.

Printed Folder Selection

A "printed" folder can now be selected in order to determine where documents are stored after processing is complete.

Processing Fixes

The following processing fixes have been implemented:

- Improved TIF/TIFF processing performance.
 - File processing cancelled if file can be found in Pending folder when a printer's folder error dialog is detected.
-

Availability

In order to take advantage of the updates mentioned above, please download the latest SilentPrint Install or SilentPrint Trial from the following URL:
