## SilentPrint 2.02

### Ignore File Types / Landscape Images Fix

Type: SilentPrint Update  
Software Affected: SilentPrint Install / SilentPrint Trial  
Hardware Affected: None  
Further Reference: SilentPrint User Guide

---

## Updates

SilentPrint 2.02 has the following updates:

- Ignore File Types
  - Landscape Images Fix
- 

## Ignore File Types

Each SilentPrint Task can be configured to ignore (not process) particular file (document) types. This is useful when a Task is configured to process All files, and single or multiple file types such as DOC or PDF need to be ignored.

Specify the following configuration parameter under the relevant [TASK] section in the SilentPrint configuration file, SilentPrint.ini:

```
Ignore File Types=File extension
```

For example, to ignore files with a DOC extension, include the following:

```
Ignore File Types=DOC
```

If more than one file type needs to be ignored for a Task, separate each file extension with a comma (.). For example, to ignore files with a DOC or a PDF extension, include the following:

```
Ignore File Types=DOC,PDF
```

---

---

## Landscape Images Fix

GIF, JPG/JPEG and TIF/TIFF images with a landscape orientation are now printed at the correct size.

Previous SilentPrint releases were printing the images too small.

---

## Availability

In order to take advantage of the updates mentioned above, please download the latest SilentPrint Install or SilentPrint Trial from the following URL:

[http://www.funasset.com/support/software/funasset\\_applications.htm](http://www.funasset.com/support/software/funasset_applications.htm)

**NOTE:** Upgrading SilentPrint to the latest release will not affect your existing SilentPrint configuration.
